arm band (yellow)

Plus

arm band (green)

Youth

arm band (orange)

Non riders arm band (prints)

Must be worn at all times!

Emergency and Exit Plan

We are currently using the south side entrance of the building. In case of emergency please use any of the 4 exits on the south side of the building clearly marked with exit signs and emergency lights. Please note we also monitor CO levels or commonly known as Carbon Monoxide levels. We will stop riding, and vent the exhaust fumes if needed as we go through the day. This happens if our fans can't keep up..... We do this for your safety and well being. There are fire extinguishers placed all around this facility in case there is a need for them. Thank you and have a safe and fun riding experience!

See photo below for reference to how to exit the building in case of emergency.

Red Box shows area of Building currently in use. We will be expanding this as the year progresses.
